Balanga City, Bataan, Philippines | jose.junmar@gmail.com | [linkedin.com/in/junmar-jose](https://www.linkedin.com/in/junmar-jose)

PROFESSIONAL SUMMARY

Technical Lead / Engineering Manager with 9+ years of experience leading and building SaaS, e-commerce, web, and mobile platforms for local and international teams. Strong background in PHP/Symfony, React, Next.js, Node.js, platform architecture, agile delivery, and remote engineering collaboration.

CORE COMPETENCIES

Technical Leadership | Engineering Management | Software Architecture | Solutions Architecture | Agile Delivery | Scrum Mastery | SaaS Platforms | E-commerce Systems | API Integrations | Full-Stack Development | Team Mentoring | Remote Engineering Teams

TECHNICAL SKILLS

Backend: PHP, Symfony, Laravel, Node.js

Frontend: React, Next.js, React Native, Backbone/Marionette, Tailwind CSS, Bootstrap

Databases: PostgreSQL, MariaDB, MySQL, MongoDB, Redis

Cloud/DevOps: Kubernetes, Azure, Google Cloud Platform, Docker, Scalingo, Vercel, CI/CD

Domains: SaaS Platforms, E-commerce Integrations, Web Platforms, Mobile Applications, CRM Systems

PROFESSIONAL EXPERIENCE

Technical Lead / Scrum Master / Senior Full Stack Developer

StoreKeeper B.V.

Apr 2025 – May 2026

Full-time | Netherlands · Remote

Led engineering delivery, Scrum operations, and full-stack development for a SaaS/e-commerce platform supporting webshop owners and digital commerce operations.

- Led a development squad within a multi-squad engineering structure, improving ownership, execution, and delivery consistency.
- Designed and implemented a tailored Scrum framework to improve product delivery, stakeholder alignment, team operations, and release cadence.
- Took ownership of CTO-level operational workload, including pull request reviews, deployment coordination, technical decision support, and process improvements.
- Collaborated with the CEO, CTO, and product owner to prioritize roadmap items, customer needs, bug fixes, and enhancements, helping deliver a year's worth of backlog.

Tech: Symfony, Backbone/Marionette, React, PostgreSQL, Redis, Kubernetes, Azure, Scalingo, Tailwind CSS, Bootstrap

Solutions Architect / Lead Engineer

Self-employed

Jul 2024 – Mar 2025

Freelance | Netherlands · Remote

Architected and led the development of an AI-driven SaaS platform for a Netherlands-based client, helping turn a startup idea into a marketable product.

- Architected the core SaaS platform structure, aligning technical decisions with product vision, business goals, and scalability needs.
- Led the development team across planning, implementation, technical coordination, and delivery of core product features.
- Translated business requirements into actionable technical plans, development priorities, and product execution steps.

Tech: Symfony, React, Next.js, Tailwind CSS, Vercel, Scalingo

Lead Developer

CC.Talent formerly CodingChiefs

Jun 2021 – Jun 2024

Full-time | International Clients · Remote

Led full-stack development and technical delivery for international client projects focused on SaaS platforms, e-commerce integrations, legacy modernization, and remote engineering collaboration.

- Led modernization of legacy web systems by refactoring and migrating them into a custom framework built with Symfony components.
- Supported integration between centralized databases and 100+ webshops, improving data consistency, operational efficiency, and e-commerce platform coverage.
- Expanded SaaS platform reach by helping integrate webshop platforms such as Shopify, Magento, Prestashop, CCV, and related commerce systems.
- Mentored junior developers and helped strengthen agile delivery through clearer ownership, code reviews, and consistent releases.

Tech: PHP/Symfony, Symfony Components, PostgreSQL, MariaDB, API Integrations, SaaS Platforms, E-commerce Integrations

SELECTED CONSULTING EXPERIENCE

Senior Developer / Consultant

Oxford Business Group

Jul 2021 – May 2023 | Remote / International

Delivered senior development and consulting support for web and e-commerce platforms, including

Drupal-to-WordPress/WooCommerce migration, custom WordPress functionality, technical SEO improvements, platform stability, and developer mentoring.

ADDITIONAL EXPERIENCE

Software Engineer, Lead

Bayview Technologies, Inc. | Aug 2019 – Jun 2021

Led software engineering delivery for client-facing web projects; served as Scrum Master, introduced Docker-based workflows, supported React/Node.js adoption, implemented CI/CD pipelines, and conducted code reviews.

Co-founder / Lead Full Stack Engineer

Techrostrum Digital Solutions | Feb 2020 – Mar 2021

Co-founded a software development solutions provider and led full-stack engineering delivery, system architecture, Scrum team mentoring, CI/CD workflows, code reviews, and client delivery.

Full Stack Developer / PHP Developer

Oxford Business Group | Feb 2018 – Aug 2019

Developed and optimized CRM, e-commerce, and internal web systems; designed an offline-capable CRM with REST API synchronization and supported Linux server maintenance.

Earlier Career:

Strategy Lions | Full Stack PHP Developer

Kockum Sonics AB | Marine Systems Developer

Municipality of Balanga | PHP Developer

BPSource, Inc. | Web Developer / IT Support Intern
